The King of Silver Rarities - 1804 Silver Dollar

This rare silver dollar is sought by many collectors but there are only 6 of these known originals housed in collections. For years this rarity has been the subject of many controversial discussions and will still be a mystery until more facts are brought to light. It is valued in excess of \$20,000.

April 12-18, is National Coin Week, some of these famous silver dollars will be displayed in museums and show places throughout the country.

An interview from two of the present day owners and article is on page (4).

FLASH! 1943 Copper Cent sold, means College for 3, Story on Page (9).

THE LARGEST CIRCULATING PUBLICATION IN THE EAST.

"INTRODUCTION FOR NEWCOMERS TO COIN COLLECTING"

By Clarence M. Fink

Welcome to one of the oldest and educational of hobbies! Numismatics, the science of studying and collecting of coins, medals, and currency salutes the embryonic coiner, and beckons him with continents of pleasure, endeavor, and profit if he prefers it. The value of a hobby is well known, many doctors prescribing it as the simplest way to happiness and well being for anyone at any age. A coin collector's natural inclination should be his guide, for he will immediately be confronted with a fascinating maze of highways and byways that can both delight or vex him, the latter with the high cost of operations in certain fields of specialization.

Knowledge is the best equipment a beginner can possess. Select your loadstone of attraction, figure the cost of outlay, then set your coin compass toward your goal. Remember, don't be expecting real bargains, they're rare, but concentrate instead on the good solid buys of reputable dealers that appear at regular intervals. Investment and speculation plays more than a minor role in today's coin buying, and has a tendency to create false values on certain items. Risk in this type of investment is the same as that on the stock market. However there are just as many opportunities now as there were ten, twenty, or even fifty years ago, and your smart coin purchases today may be the sensational buys of the future.

Coin collecting is one way of saving money, by using part of your pay-check in building a liquid asset that can be turned into spending money when needed. This wholesome hobby teaches the important lesson of the power and value of money. Methodical and systematic accumulations of specie instructs in careful planning, and makes this intriguing leisure hour entertainment a test of sound judgement and business skill.

INTRODUCTION TO COIN COLLECTING

Coins are great conversational pieces, and odd and curious specimens excite the interest of those who have not as yet become collectors. Coin collecting lays a firm pathway to social activities with its conventions, club meetings, and exhibits by bringing together various groups of people with the same interests. On the way to becoming a numismatist, a collector learns to grade and appraise the coins he has purchased, acquiring in time the keen sense (usually after painful incidents) to detect the few counterfeits that are introduced into this hobby by a relatively small group of spoilers who are prevalent in most hobbies.

Aside from the historical and geographical associations, there is an entire world of educational topics from which the ambitious collector may derive much practical information such as language of foreign countries, their habits, customs, and progress of science, for coins are truly the storehouse of information, and have been since the beginning of the first intelligent race.

A good coin collection carefully selected is a readily marketable commodity, and besides the pleasure and interest in building it, the collector if he holds it a reasonable period of time, is assured a return of much more than his original investment. Enthusiastic coin collectors and numismatists have but one aim in their endeavors, and that is a burning desire to know every bit of history and story behind every enticing coin. Why it was issued; who engraved it; the unusual story behind certain specie, and the dozens of interesting details that stir the true interests of the hobby.

What are a newcomer's chances of discovering a new coin variety? Excellent I would say because important discoveries are being made each year of seemingly common coins, a number of which have been kept and handled by prominent dealers for years. It is not unreasonable to believe that YOU could be the one to contribute significant information of this kind to an appreciative coin collecting fraternity.

Beginners-Average Collectors-Advanced Numismatists

... ALL will want this latest 16th Edition

Here is the answer to your need for a practical, helpful guide and reference book. Contains mint record and prices paid by dealers for all U. S. coins. Information on collecting coins—how coins are produced—mints and mint marks—condition of coins—location of mint marks—preserving and cleaning coins—starting a collection—what to buy—history of mints and interesting descriptions of all U. S. copper, nickel, silver and gold coins. Fully illustrated. Soil-resistant hard cover.

WHITMAN PUBLISHING COMPANY • Racine, Wis.

SPECIAL NOTICE

If any of our readers are lucky enough to report finding a Silver 1959 Cent, The Flying Eaglet will give to the first one reporting it a Free Prize of a \$5.00 Gold Piece.

Publisher and Editor

FRANK G. SPADONE a member of M.A.N.A. - C.N.A. - A.N.A.

229 SOUTH 11th STREET — NEWARK 7, N. J.

Mitchell 3-1153

AD FORMS CLOSE THE 20th OF EACH MONTH.

Entered as second class matter October 13, 1956 at the post office of Newark, New Jersey under the act of March 3, 1879.

FROM YOUR EDITOR'S DESK —

New Designs — Besides the new Lincoln reverse cent, Canada has also changed the reverse of the 1959 half dollar. The photo is in our Canadian Section. J. E. Charlton, publisher of the "Standard Catalogue of Canada and Newfoundland" is also President of the Canada Coin Exchange, presented me with his latest 7th edition. Among the improvements of this popular guide catalogue, is the non soil cover. Over 370 illustrations, new listings and varieties, listed for the first time is the valuations of proof sets and mint sets. Mr. Charlton, has been awarded this years C.N.A. convention auction sale.

Earl A. Mc Brayer our able writer, representative, teacher and National Guard officer, will attend the Local convention in Cincinnati, Ohio. Earl, will have a table for the Flying Eaglet. He will be accepting subscriptions, ads, give out sample copies and gifts. Stop over our table if you are attending.

Earl has mentioned he has some July 1, 1957 back issues and will be glad to send them to anyone who sends him 10¢ for postage. The address is 498 Sunland Dr., Cincinnati 48, Ohio. Convention is March 13-15, Cincinnati Coin Club, Downtown Section.

Rare Canadian 1921 5 cent found—A Spokane High School youth, recently made one of the scarcest finds. He traded off some stamps to a woman stamp collector for some foreign coins, the value about \$8.00. A casual look through this lot showed nothing of value, but a later inspection changed an \$8.00 purchase into a tidy sum value. This coin catalogues at \$400. Unc., his is extra fine.

Universal Numismatic, announced Bernard Blatt, of Brooklyn, N. Y. as their editor. Bernard, related that of the 250,000, 2nd Israel Comm. coin pound issue, only 16,000 were sold here, the balance was sent back to Israel in January 1959. The Universal Numismatic Association, is published in Ontario, Canada.

National Coin Week is April 12-18, are you displaying your collection? Many others will. Today there are more collectors than ever, plus many are getting interested in this fine hobby of ours daily. Through the many displays, advertising mediums, coin clubs and conventions new interest is arousing our fellow man. A survey of coin shops, publication circulation and new coin clubs reveals a great surge in new collectors and purchases. We predict a sharp increase in coin prices in the future on all types and 100 percent increase in new collectors. The key words that answer most all questions are: Supply, demand and economy, one without the other will reflect on the various type coins—give it some thought. 1959 looks like a boom year.

Metropolitan N. Y. Convention should be a must for all collectors in the area May 1-3, at the Park Sheraton Hotel, in N.Y.C. Dealers from all parts of the country will be attending. Arrangements are being made to exhibit Cardinal Spellman's huge and interesting collection, also Dr. Sheldon's Large cents collection, one of the largest in the country. The Flying Eaglet will have a table for this big event opposite the registration desk. Yours Truly and assistant Nick Salimbene will be on hand to give free gifts away, so stop by even if just to say Hello!

To Our Readers — As you will note your copy was sent by envelope. This is one of the many better services you will be receiving as we go along. Some of you have noted your name plate address, expiration date has not been changed. Please don't fret, as we have you listed correctly on file.

Certificate Awards — We have (80) certificates we would like to give to coin clubs for the best displays at the meetings. Clubs wishing to receive these awards for club members please write to the editor.

FAR AWAY PLACES

A QUIZ — By Harold Don Allen

One great fascination of paper money is the manner in which its appearance can blend the craftsmanship of a firm of bank note producers with the colour and traditions of a distant land. Several of our notes in this quiz bear clear evidence of having been produced in nations well known to us, yet the bills are for "far away places" in every sense of that term.

The five notes in our illustrations are current paper money of five distant nations. None has ever before been illustrated in a numismatic publication, yet recent changes in federal legislation makes it possible for this issue of the *Flying Eaglet* to include likenesses of these notes. How good are you as a numismatic detective? How many of these three notes can you identify? If you think you have found clues to all three, write to the *Flying Eaglet*; the correct answer with earliest postmark and you can watch the mails for a prize.

Face value of the notes ranges from about \$3 down to less than 25 cents.

Correct answers and the name of the winner will be in next month's *Flying Eaglet*, along with further illustrations relating to this fascinating numismatic field.

1804 SILVER DOLLAR

This king of rarities has many interesting but conflicting history background. Whether the true facts will ever be known is a mystery only the future will tell. A lengthy conversation with various dealers and research was spent to gather together all available information on this 1804 Dollar. A more informative article I thought would be to interview some of the owners of this dollar, which I did.

One owner, Mr. Frank Liveright, of Westwood, N. J. donated his 1804 and his whole collection to the Newark Museum, presently valued at \$1,000,000. Mr. Liveright although aged 85 still attends some of the numismatic gatherings to keep in touch with our interesting hobby. Many may recollect he was V. Pres., and General Manager of Bamberger's Department Store in Newark for 40 years. He related how he purchased his 1804 dollar 35 years ago from an intimate friend for several thousand dollars. The question of how many of these pieces are around is still doubtful, but it was mentioned he believed 12 known and possibly 20 exist and only 7 are accounted for. Whether these include originals or restrikes is unknown but this also makes quite a conversational piece.

Although 19,570 are recorded as struck it is believed these were struck in 1836-1839. As this article continues I suggest you accept what you wish and draw your own conclusions, as there have been many interesting stories related in the past, some of which I will repeat as we go along. Mr. Harold Bareford, of N.Y.C., is also a proud owner of an original 1804 Dollar. I spoke with Mr. Bareford over the phone at his office after I was connected with two of his secretaries. His 1804 dollar was bought from a dealer in Cincinnati a number of years ago at an undisclosed figure. Mr. Bareford, started collecting at the age of 14, and since then has acquired a vast collection of rarities one of the best collections in the country. He commented, he still has all the coins he has saved and never sold one. One belief is the where abouts and scarcity of this mintage has it they were melted down because the bullion value was more than the face value. Another belief is a ship load of the entire mintage of this year was bound for China and sunk during the voyage. Another story, somewhat fantastic but amusing was, they were used as a luck charm under every ships mast. Now we'll have coin collectors buying old galleys, for the sake of curiosity. (smile) Although, it is known for vessels to contain money as a christening or luck charm for the first voyage.

One sound theory had it the beaded edge wasn't used until 1828, although the 1804 dollar has it. Also, the dies were made after 1836 as the dies in the early dates were used until they fell apart, not destroyed at the end of each year as is the practice today. This probably accounts for the listed Originals and Restrikes. Another theory is that the dies were made to strike a few of these 1804 dollars so they may be traded for other coins needed for the U.S. Mint collection. No doubt, further articles, research and collaboration of other collectors, dealers and new discoveries will bring more to light in the future.

One source mentioned he didn't believe there are originals and restrikes, but just one striking. As there are different reverses known as Type 1 as original, type 2, as restrike. I would like to favor the following theory on this subject, as theory only, not an authority.

It is known that the early mint recorders were some times conflicting and not kept in order properly. I assume that 19,570 is in error, but only some 20 odd pieces struck as a test engravers work. Being so few only the immediate officials kept them, a few being used for some trades of other coins lacking to complete the U. S. Mint collection which is housed in the Smithsonian Institution. While testing this silver dollar a different reverse was used, thus accounting for restrikes-originals of the day. Being few and interesting, many ardent collectors made this a must for their collection. What is your theory? This silver dollar is presently valued in excess of \$20,000. The following collectors and institutions are known to own a genuine specimen, The Newark Museum, Frank Liveright, Harold Bareford, N. Y. C., Mr. Louis Allasberg, of Baltimore, Md., The Smithsonian Institution; Kansas City Museum; Boston Museum; The Du Pont Collection.

AUCTION AND SALE BID OR BUY

Closes March 30th. Usual rules apply. Postage and Insurance extra. Prices shown are my selling prices, if you think they are too high send in your best bid, you may or may not be right. All coins to be sold outright or to the highest bidder. Satisfaction guaranteed.

9512 Wyandotte K.C. 14, Mo.

Doctor: How's the patient this morning?

Nurse: I think he's gaining consciousness. He tried to blow the foam off his medicine.

"200 MILLION YEAR OLD COLLECTORS ITEM"

Fossil hunting in the Mazon fossil bed area, for Pre-Historic Fern and Tree Leaves, is rapidly becoming restricted. On our last field trip there, we endeavored to not only add new material for our own displays, but to secure additional items for other collectors.

These fossil leaves, (from this area), are some of the best types obtainable in the U.S. In nodular half, these fern leaves show prominently in detail. The tree leaves show even the fine hairlike network of the leaf. These are approx. 200 Million years old, and guaranteed Pre-Historic.

We have a few **EXTRA FINE MUSEUM TYPE SPECIMENS** (Leaf 4" long or more, in slightly larger nodular) for \$6.00. Entire smaller tree leaf \$3.00. Entire smaller Fern leaf \$2.50. Nice part, (or Section) of Fern Leaf \$1.45.

THE 1943 COPPER CENT

A recent clipping from the "Los Angeles Examiner" of Calif. had a story and photo of the Beyer boys and their good fortune. Marv 16, and his two brothers Charles 17, and Bob 14, will be going to college from the proceeds of \$40,000. This is the amount believed was paid by Walter D. Greer of Greer Products Co. in Los Angeles.

Although the Mint reports no copper cents were struck in 1943 because of the shortage of copper during the War, this clipping

states this is one of eight coppers known, the other 7 are accounted for. This is real news to the coin collector, if true!

Young Marv Beyer, found this cent from checking his change from his paper route. Marv, says his father invested \$2,200. for tests to prove it was genuine. If you happen to have \$2,200. kicking around and by chance find a copper 1943 cent, you too can enjoy the windfall.

One of the thrills of coin collecting is the possibility always exists that one can find a valuable coin. Your editor and many dealers are plagued daily with inspecting steel 1943 cents copper plated. Many copper cents have been plated by jokesters, eventually someone finds it. At least one sure way of determining if it is copper is to place a magnet near it, if it attracts and clings to the magnet it is of steel metal, as copper will not cling. We will have more on the copper cents in our next issue if we get answers to our inquiries.

Stamp and Coin Club

A SUBSCRIBER FROM AUSTRALIA SAYS HELLO!

Donald Wright, from Queensland, Australia is shown with part of his collection of coins of the world. Donald is a long time reader of our "Eaglet". He started to collect coins in 1944 when some of the servicemen stationed near by gave him odd coins.

Donald, is a salesman for a travel goods Co. A member of the Australian Numismatic Society and says coin collecting is young there, but increasing rapidly.

NUMISMATIC QUESTION - ANSWER BOX

By C. Lynn Glaser

Q. What is a Racketeer Nickel? — R.J.C., Cranbury, N. J.

A. A gold plated Liberty nickel. When the Liberty head nickel appeared in 1883, the words "five cents" weren't included on the back. The coin was also about the same size as a five dollar gold piece. In Boston one individual was quick to notice these facts I mentioned above. He and a friend got fifty dollars in Liberty nickels and gold plated the batch so they would resemble five dollar gold coins. After he spent the entire lot on five cent articles and getting \$4.95 change each time, he got another \$250. worth of nickels and started passing them again. He was finally caught after passing about 3,000 "gold plated pieces". However since he never asked for change, just waited (he was a deaf mute) the case had to be dismissed because at the time there was no law against plating nickels, also the lawyer contended the change was given voluntarily. After the trial the mint was ordered to add the inscription "five cents" to the back of the nickel.

Q. What are the standard reference books on various coins?

1. "Half Cents" - "United States Half Cents" by Gilbert
2. "Large Cents" - "Early American Cents" (1793-1814) by Sheldon, Revised Edition "Penny Whimsy" by Sheldon, Paschal and Breen
3. "Large Cents" - "United States Copper Cents" (1816-1857) by Necomb
4. "Half Dimes" - Reference by Valentine
5. "Dimes" - "United States Dimes" by Kosoff
6. "Half Dollars" - Reference by Beistle
7. "Hard Times Token" - Reference by Low
8. Patterns "United States Trial and Experimental Pieces" by Adams and Woodin
9. "Currency" - Reference by Friedberg
10. "Confederate Currency" - Reference by Criswell

Q. When did the mint last use the old type proof set envelopes? C.F.R., Batesville, Ark.

A. 1955

Q. Why did 1925 (and other) silver dollars become common so suddenly? — B.L., Detroit Mich.

A. Under the Bland-Allison act the government has been saving silver dollars in their vaults and releasing them when needed. Although the mintage of 1925 silver dollars was over 10 million the bulk of them have been resting in government vaults until about two years ago. When the coins were released the value of the coin dropped from \$10.00 to about \$2.00.

Since the majority of people who read this column read it to gain bits of information and not to have questions answered, I have decided to ask myself one hypothetical question each month concerning some interesting yet little known numismatic fact.

For this month I'll ask you one. What do you think the highest price ever paid for a U.S. commemorative coin is? Before you read any further take a guess. A Panama Pacific \$50. gold piece catalogues at \$2,200. Would you guess \$2,500, 3,000, even 4,000? You are wrong! The highest price ever paid for a commemorative is \$10,000.00 and that was paid for one of the commonest commemoratives, the Columbian half dollar. In 1892 the Remington Typewriter Co. paid \$10,000 for the first Columbian half dollar which, by the way, was the first commemorative ever issued in this country.

If you have a question concerning numismatics write me — Lynn Glaser at 240 East 13th Ave., Conshohocken, Penna.

WANTED

I am paying top cash prices for the following circulated coins, VG and Better.

- 39-D NICKELS
- 31-S NICKELS
- 30-S, 31-S&D DIMES
- 32-D&S QUARTERS
- 38-D HALVES

CAN USE ANY QUANTITY.
Describe and price or send for my offer.

Viroqua Coin Dealer Waives

Fraud Hearing

Clemon V. Clark, 31 Viroqua, operator of the Viroqua Coin Co., waived preliminary hearing on a charge of using the mails to defraud when he appeared before United States Commissioner Z. S. Rice in Sparta. He was released on \$1,500 bond.

Asst. U.S. Atty John C. Fritschler Jr. said he defrauded more than 100 people throughout the U.S. of an estimated \$12,000 by failing to deliver coins which customers had sent money for.

THANKS!

TREASURY DEPARTMENT — U.S. SECRET SERVICE

Use of illustrations and films of paper money, postage and Revenue stamps, and other obligations and securities of the United States and foreign governments.

The Treasury Department sponsored legislation in the 85th Congress to liberalize and clarify the laws relating to the use of illustrations and films of paper money, postage and revenue stamps, checks, bonds, and other obligations and securities of the United States and foreign governments. This legislation was passed by the 85th Congress and approved by the President on September 2, 1958 (Public Law 85-921, 85th Congress).

This document contains information as to when it is permissible under the new legislation to print illustrations and make films of United States and foreign obligations and securities in comparison with what was permissible prior to its enactment.

United States and Foreign Paper Money and Other Obligations and Securities.

(A). **Printed Illustrations.**—Under the new law, printed illustrations of paper money, checks, bonds, and other obligations and securities of the United States and foreign governments are permissible for numismatic, educational, historical and newsworthy purposes. Previously, special permission of the Secretary of the Treasury was necessary.

The illustrations of paper money, checks, or bonds must be in black and white and must be of a size less than three-fourths or more than one and one-half times the size of the genuine instrument. The illustrations must appear in articles, books, journals, newspapers, magazines, or albums, and no individual facsimiles of such obligations are permitted. No illustrations may be in color, whether or not the color is the same as the color of the genuine instrument.

The following are some examples of situations where illustrations are now permissible without special permission of the Secretary of the Treasury, provided the illustrations are in black and white and conform to the size restrictions: (1) Illustrations of paper money, postal money orders, and savings bonds in books to teach arithmetic; (2) illustrations of paper money accompanying educational or historical articles dealing with paper money in numismatic or other periodicals; (3) illustrations of paper money in albums for the collection of such money; and (4) illustrations of paper money or checks accompanying newsworthy articles in newspapers or magazines.

(B). **Films, Microfilms and Slides.**—Under the new law, films, microfilms, and slides of paper money, checks, bonds, and other obligations and securities of the United States and foreign governments are permitted in black and white or in color for projection upon a screen or for use in telecasting. Previously, such films or slides were permitted only by special permission of the Secretary of the Treasury.

The following are some examples of situations where films or slides of obligations and securities of the United States and foreign governments may be used: (1) Slides of paper money used by numismatists in giving lectures on the history of money; (2) educational films showing paper money used by business concerns to teach personnel how to make change; (3) microfilms of paper money, checks, and bonds by banks; (4) motion picture films for entertainment purposes.

RARITY AND VALUE

By C. Lynn Claser

1876 PATTERN COPPER DOLLAR

Under the Adams-Woodin rarity system it lists as Rarity R-13, 4 or 5 Pieces. The Adams-Woodin Pattern book lists rarities 1 - 15, 15 being unique.

In the following lines I would like to touch on a subject, that comes up occasionally, and attempt to shed some new light upon it.

There is probably no term more distorted and misused than the word rare. For instance: I have in my collection an 1864 "L" cent, a 1907 proof cent and a scarce variety of a 1793 cent. All these are called "rare" by one dealer or another. Yet there are about 1,000 1907 proof cents in existence, over 200 of my 1793 cent variety known and I have counted over 35 1864 "L" cents for sale in one issue of a numismatic magazine. This seems to indicate that "rare" has a rather hazy meaning. Dealers have been calling every day coins "rare" to make a sale (either through ignorance or greed). A few are: 1931 "S" cents over 1,000 rolls known, 1936-37-38 proof sets all over 2,500 in existence, 1909 "S" VDB Lincoln cents at least 10 rolls known and hundreds of singles, and the worst offenders are the so called "scarce" 55 "S" cent rolls, 44 million made and virtually all still in existence. I don't want to be taken wrong, these coins have already proven to be good investments, but when you buy them you don't own a rarity. Another example of the present state of affairs: recently I bought an 1802 1/2 cent in fine condition (best condition known) for \$75. I might have one of the best 30 out of only 150 in existence. I might have paid the same price for a 1909 "S" VDB cent, which had over 50 pieces advertised in a recent issue of a numismatic magazine.

In his book on Early U.S. Large Cents, Dr. Sheldon set up the rarity scale I mentioned in the December "Eaglet." I would like to reproduce it here with the terms "Rare," "Scarce" etc. properly placed.

- R-1 (over 1,250 known) common
- R-2 (501-1,250) Not so common
- R-3 (201-500) scarce
- R-4 (76-200) Very scarce
- R-5 (31-75) Rare
- R-6 (12-30) Very rare
- R-7 (4-12) Extremely rare
- R-8 (1, 2 or 3) Unique or semi unique

The following is a partial table of the more famous U.S. coins and the approximate number in existence. With this table you can see which coins are the rare ones and figure out what prices some of them should bring. Notice with the exception of the 1909 "S" Indian, the 1909 "S" VDB and the 1931 "S" cent all the other (R-1)'s and (R-2)'s listed below bring 3 figure prices. Yet numerous (R-3)'s, (R-4)'s and a few (R-5)'s can be had for \$25.00.

Description	R-8	Known
1853 "O" 1/2 \$ plain		3

● CLUB NEWS ●

THE NEWARK COIN CLUB meets the second Tuesday of each month at the Newark YW-YM-CA. Visitors are welcomed to attend or join.

Correspondence should be mailed to Milton Stern, Secretary
119 Freeman Street
Woodbridge, New Jersey

THE PEOPLE'S COIN CLUB OF MAINE

Enclosed is a check for two dollars (\$2.00) for a subscription to the Flying Eaglet.

We are starting a new coin club here in Bangor, Maine and would like to be listed in your magazine. Also if you have any other Maine clubs listed would you please let us know.

We are:

The People's Coin Club of Dow Air force Base and Bangor, Maine.

Meeting dates—the first and third Wednesdays of the month at 7:30 p.m. at the Base Service Club. We have approximately fifteen members.

The People's Coin Club
c/o Helene Woodward
Crestwood Trailer Pk.
M.R.A., Bangor, Maine

NICE GOING

We would like to report that the **Princeton Numismatic Society** held its 13th meeting on February 7, 1959.

We would like also to report that we have had 100% attendance for the last 13 meetings.

We enjoy your magazine **The Flying Eaglet** very much. We would like to renew our subscription.

—Stephen Kerr
52 Mercer Street
Princeton, N. J.

TRI-CITY COIN CLUB

Dear sirs:

We have formed a new coin club in Borger, Texas and I believe the Gloss stock Grading Series will be beneficial to the new coin collectors to learn how to grade their coins.

I am enclosing \$1.00 cash for (6) of these for our 2nd Meeting held Feb. 16th. If the club decides they would like to have one for each member, I will order more later.

—Tri-City Coin Club
Borger, Texas
W. D. Slaybaugh, (Sec.)

Our sixth meeting of the **GARFIELD STAMP & COIN CLUB** was held at Somerset Hotel, 100 Somerset St., Garfield, New Jersey.

Communications were read - letters & magazines were received. A Bulletin board was made up for the benefit of collectors so they could put up their notices of items wished to be exchanged, sold or otherwise.

John Budzyn had on display a set of Liberty head nickels com-

plete from 1883 to 1912, also on display were French coins and paper money by Pierre Cariou, a very interesting and complete display.

There will be an auction at our next meeting which will take place at 8:30 P.M. Friday March 13, 1959. We had 4 new members join at this meeting. Members are reminded to bring their lots of coins and stamps to be bid upon at the next meeting.

All visitors who are interested in stamps or coins, are welcome to attend our meetings.

The club is starting a library for the members. Any contributions or donations of numismatic or philatelic books are greatly appreciated.

—Joseph K. Massaro, (Sec.)
185 Union Avenue Clifton, N. J.

COLLECTOR'S CLUB OF BOSTON

The 122nd regular meeting was held in the Sheraton Plaza Hotel, Boston, Tuesday Feb. 10th, 1959. After the pre-meeting dinner in the Town Room of the Hotel, Pres. Andy Scott opened the meeting at 8 P.M.

Although this was a stormy night we were happy to greet 20 members and guests. The Pres. welcomed and introduced the following guests. Mrs. Milton Feinstein, Harold Hansen, Lorne Slocum and his son. Reports of the Secty. & Treas. were read and approved.

Each member and guest were presented an UNC 1959 Lincoln Memorial Cent, a donation from Andy. He also donated one Roll of these cents as a free door prize. This was won by Philip Greco.

Many thanks to Earl V. Tuttle, our guest speaker, who braved the storm and came all the way up from Worcester, so as not to dissappoint our members. Earl is an authority on Crowns of the World. He gave a very interesting talk on the French Ecu.

A drawing was held on a 1957 Proof-Set-a roll of UNC 1959 Lincoln Memorial cents- an 1958 UNC Canadian silver dollar. Then Maurice M. Gould took charge of the auction. The bidding was brisk on Canadian Coins and many coins went at bargain prices.

Lest you forget we meet the second Tuesday of each month (except during July & August) at the Sheraton Plaza Hotel, Boston, at 8 P.M. Visitors are always welcome.

Our new slate of officers for the year 1959 are as follows.

Andrew S. Scott, President;
Leonard E. Finn, Vice-Pres.
Grace D. Lincoln, Secty.
Louis G. Koutsos, Treas.
Board of Directors.

William H. Regan, Charles E. Mason, Earl V. Tuttle, Melvin E. Came.

—Grace D. Lincoln, Secty.
41 Aquavia Road,
Medford 55, Mass.

NEWTON COIN CLUB

Dear Ed.

Newton Coin Club held their 9th meeting on Feb. 3, at The Local Y.M.C.A. We are 45 members strong and average 85 per cent attendance. Our auctions are very well managed and buying is good. We sell the Flying Eaglet in the club and would appreciate you sending 5 copies each month. Any profit is given to the Treasure.

Neil "Ike" IkerdNewton, Kansas

Gentlemen:

The Upton County Stamp & Coin Collectors Club was organized 1958, with 13 charter members. Mrs. Oteka Darby was elected President, Walter Campbell was elected vice-president, and Mrs. Norma Jean Caldwell was elected secretary-treasurer. The club voted to meet at 7:30 P.M. at the Upton County Park Building in McCamey on the third Wednesday of each month.

You will find enclosed our check three subscriptions to The Flying Eaglet.

—Norma Jean Caldwell, Secty
Upton Co. Stamp &
Coin Collectors Club
Box 1014, McCamey, Texas

RYAN AERONAUTICAL COMPANY COIN CLUB

The Ryan Aeronautical Company Coin Club of San Diego, at their 18th meeting in January, reached a paid total membership of 101—all of whom have enrolled as members since the start of the club's fiscal year last July. The club is justifiably proud of their rapid growth, which they feel is outstanding—especially for a company-sponsored club. The initiative of the officers and the enthusiasm of the members are reflected in the attendance at meetings which now averages around 65; the December meeting drew an attendance of 81 members and guests. The club meets the second Tuesday of each month at the San Diego Hearing Society Hall at 3843 Herbert Street. Each meeting features a coin auction, several door prizes, ribbon awards for coin displays, a special prize drawing for members only and refreshments. Douglas Decker serves as the Ryan Company club commissioner with Ralph Kruse, president, Don Chace, vice-president and William B. Tragsdorf, secretary-treasurer.

SAN DIEGO NUMISMATIC SOCIETY

The 22nd annual banquet and installation of officers of the San Diego Numismatic Society was held January 24th in the Continental Room of the San Diego Hotel with 113 in attendance. Retiring president Francis S. Jones welcomed Ralph (Curly) Mitchell, of Palo Alto, as master-of-ceremonies, who, in turn, introduced many out-of-town notables. Among the visiting digni-

taries were Harry S. Davidson, of Los Angeles, president of the California State Numismatic Association, Erich Werling, of Oakland, historian of the C.S.N.A., John C. Yribarne, of Redlands, board of directors member of the C.S.N.A. and Herb Bergen, of Fullerton, candidate for 2nd vice-president of the A.N.A. The principal speaker was A. Kosoff, of Encino, who interestingly and informatively covered the his- sance antiquity. Dr. Calvert L. Emmons, of Ontario, president emeritus of the C.S.N.A., served as installation officer for the 1959 slate of officers: Paul Hamm, president; Douglas Decker, vice-president L. T. Gottschall, Treasurer and William B. Tragsdorf, Secretary. From an exceedingly fine group of coin exhibits, Irving Knickerbocker's outstanding display of U.S. coins was awarded the best-of-show medal. Other award winners were: (first) Tom Ward; (second) Mrs. Atwood MacDonald; (third) Dr. Calvert L. Emmons and (fourth) LeRoy Harvey. Following the fine dinner, enthusiastic approval was accorded the folk singing of Decca recording star Sam Hinton.

NEW COIN CLUB ORGANIZED IN ARKANSAS

The Camden Coin Club had their first regular meeting on Jan. 6, 1959 with eight members and three junior members present. Jack Dorris was elected President, Matt Rothert, Sec. Treas. and board of seven composed of the two officers Eldon Carnal, Marion Cook, George Bowers, J. P. Hall and Don Bucher. The club will meet the first Tuesday in each month at the Hotel Camden, Camden Arkansas. The Club voted unanimously to join the American Numismatic Association. Plans were made for the Arkansas State meeting in Camden Feb. 1st.

—Matt Rothert, 2nd V.P. ANA

STATEN ISLAND COIN CLUB

On the 5th of February 1959 a new coin club was formed in Staten Island, New York. The first meeting was held at the Y.M.C.A. of West Brighton, S.I. with 29 in attendance, all future meetings will be held at the Staten Island Museum, St. George Staten Island.

The following officers were elected to serve for 1959: President, Philip Rosenbaum Vice-Pres. Gennaro DeAngelis Rec. Secty., Robin Crowley Treas., Charles Wranovics Cor. Secty., Jack W. Nannery Our club meets the first Thursday of each month, next meeting will be March 5th at 8:00 P.M. Anyone wishing further information please contact Mr. Jack W. Nannery, 215 Maujer St., Brooklyn 6, N. Y.

—Jack W. Nannery
Corresponding Secy.

PROOF SETS FOR SALE

"A WORLD UNITED IN A COIN"

Would it not be nice to see a coin that would circulate freely throughout the world? knowing that it does not come from any one country alone, but instead, all, from the largest down to the Small. A coin that would represent world unity and peace, that would be worth its value, not in any one country's monetary system, but through the United Nations, all countries alike . . . A coin that would have no printing on it at all, the obverse and reverse to be in a pictorial design so that there would be no trouble to any world people of it's value or purpose . . . I believe a coin like this would be working continuously around the clock towards a better understanding in people and their problems . . .

. . . Have all world country engravers participate by submitting a design - to be decided by a panel of U.N. delegates to pick out one that would be minted and eventually circulated . . .

Now we all know that a coin must have a backing of silver or gold, so I would have all countries contributing to the U.N. an amount corresponding to the needs of their own volume of circulation . . .

I know that the above idea can be improved upon a hundred fold, and no doubt present a problem at every turn . . . But remember, this is by no means an actual structure, only a foundation.

. . . A WORLD UNITED IN A COIN . . . Nick Salimbene

CANADA'S VANISHING TOMBACS

By Harold Don Allen

Of all Canada's coinage issues of the past 35 years, there is none that is so misunderstood by collectors outside of Canada, or so blatantly misrepresented by the Canadian "man in the street", as the interesting brassy-hued "tombac" five cent coins, which introduced the 12-sided planchet to Canada's five cents, and were the country's first alteration in a coinage type during World War II.

The story of the coins closely parallels that of the United States steel cent of 1943, except that the tombac "nickels" were, if anything, even more unpopular: as soon as supplies of necessary metals permitted, the issue was withdrawn.

The misunderstanding comes with the mistaken belief that, since the coins have been melted by the millions and have vanished from circulation, they must be scarce, and if not already valuable they certainly will be in years to come.

Nothing could be further from the truth. While more were being returned to the melting pot on a single banking day in the months immediately following the recall than now are seen by them in a whole year, the truth remains that close to 11,000,000 of the coins—some 40% of those issued—still are outstanding, and statistics seem to indicate that most of these never will be redeemed.

Many collectors have holdings in the hundreds or thousands, and since the coins outnumber any realistic estimate of future customers, the pieces should hardly be considered as scarce as circulation evidence would seem to show.

No less than 28,156,490 of the coins were struck, in two issues. The 1942, released in Autumn, replaced the standard nickel coin. Like the 1943 issue, it was struck in tombac, an alloy of 88% copper and 12% zinc, to conserve Canadian nickel for wartime commitments. The 12-sided planchet was introduced to minimize confusion with the copper cent, for the circulated coins have similar appearance in subdued light. "Blackout nickels" was one of the printable nicknames for the unpopular tombac pieces. The 1942 strikings, totalling 3,396,234, reproduced the beaver obverse, used since 1937 on the nickel five-cent coins.

The large 1943 issue inaugurated a new reverse, while retaining the 12-sided planchet. A torch of freedom is superimposed upon a "V", which can be read as being for Victory or being the number of cents. Around the reverse rim is an unusual innovation, a Morse code inscription, which reads, "We win we work willingly". This "V" "nickel" saw further use on the chrome steel releases of 1944 and 1945, and was replaced by the beaver design with the pure nickel issue of 1946, which retained the 12-sided planchet.

The chrome steel pieces of 1944 and 1945 also proved to be failures, for they rusted easily; while most have vanished from circulation, there is little claim that they will be "valuable"—the truth is that they are hard to distinguish from nickel strikings, and the

average Canadian recalls only the brassy tombacs.

None of these issues will ever be really scarce.

The tombac coins have been withdrawn from circulation as returned from the banks, and will always be limited legal tender until cashed in. But the figures as to the rate at which they have been melted is instructive: it indicates the manner in which such a token coin disappears from circulation in modern times.

The accompanying chart is based on government statistics, adapted from various issues of the *Canada Year Book*. It gives the number of tombac coins in the hands of the public by millions, from the time of issue to the present day. Note the initial sharp drop in circulation: 10,000,000 pieces were withdrawn in less than two years. In the year ending December 31, 1957, on the other hand, only 32,500 pieces were turned in.

If the present trend were to continue, over 10,000,000 of the coins would never be redeemed.

But such a trend presupposes a smooth-running economy; the touch of recession in Montreal in recent months found bank tellers with the tombac coins in their cash. For the first time in years, penny-pinching non-numismatists were opening the piggy banks and letting go a few of the old coins.

No doubt many tried for a deal with numismatists, but found that little or no premium could be had.

A striking illustration of the extent to which figures are leveling off comes with these percentages, telling the part of the quantity previously outstanding that was melted in any given year:

A	1947	5,735,940	24.8%
B	1948	2,778,600	15.9%
C	1949	1,374,620	9.4%

THE NEW 50c REVERSE

WELCOME TO THE CENTRAL STATES CONVENTION! These three Co-Chairmen are hard at work getting things ready for this big event in Kansas City. They hope to make it enjoyable for you and the best in years. The host club is the "Heart of American Numismatic Association." This photo shows them taking a breather discussing topics and ads with their copies of the Flying Eaglet. They are, left to right, Ray Janda, publisher of the Janda, U.S. Coin Price List, Ray Lefman, President of HANA, and Allison Lowe, Committee Chairman.

Photo by Felix Cannatella

The 17th Central States Numismatic Convention

WHERE—Kansas City, Mo. the Heart of America - Hotel Muehlebach
12th and Baltimore

WHEN—April 24-25-26-1959—Everything is up to date in Kansas City.

HOST CLUB—The Heart of America Numismatic Ass'n.—Celebrating its 25th
Anniversary—One of the largest Coin Clubs in America.

Plan to attend this convention in the Heart of America - An airport only five minutes from downtown—For Railway travelers, a central Union Station - Many main highways lead to Kansas City—A modern municipal underground parking garage directly west of the hotel connects via tunnel with the Muehlebach and Muehlebach Twin Towers.

The Grand Ballroom will be used for the Dealer Bourse. It is a beautiful 80' by 80' room without a post or obstruction, and assures all dealers a desirable location for their tables. Its second floor and direct street entrance from three sides makes it ideal for all hotel traffic. Many already sent in for reservations, and it is suggested, that they be made ahead, as tables will be limited to 75.

For all who register, there will be an hourly drawing for nice numismatic prizes. Don Joslin, chairman, suggests pre-registration for those knowing they will attend, to prevent inconvenience on opening day.

Many educational displays are promised to attract interest of both new and veteran collectors. Insurance and security will be provided for all exhibits. Please make your requests for space, number of cases needed, and type of material to be displayed. Prizes will be awarded for the best displays based upon the following classifications:

1. U.S. Coins 1652 To Date
2. Coins Prior to 1500 A.D.
3. Foreign Coins after 1500 A.D.
4. Paper Money-All kinds
5. Medals, Medallic Art, Orders

and Decorations
6. Miscellaneous, Specialized and Others not 1 to 5.

A two session auction on Friday evening and Saturday afternoon will be conducted by S. J. Kabealo, a veteran of many of these. He assures us of choice and desirable material. Catalogs may be obtained from him at 2216 Colorado Ave., Pasadena, California.

A banquet will be held on Saturday evening at 6:30. We're sure you will enjoy the menu and entertainment arranged by Ralph Bonden, a restaurant man himself and Dave Hochberg.

For outside events, here are a few things for the visitor to see and do in Kansas City. One of the most beautiful and well planned residential areas in the country - The new Truman Library in near-

by Independence—The Country Club Plaza with its Spanish Plan shopping center—Cinerama with its wide screen will feature "South Seas Adventure" — For Sports lovers, the Kansas City "A's" will play the Detroit Tigers in a three game series—All downtown shops are in easy walking distance of the Hotel—The Swope Park Zoo—Municipal Airport—William Rockhill Nelson Gallery of Art—Kansas City Museum—Nice restaurants with K. C. Steaks. These are a few of the many things to provide complete entertainment for the whole family, while we "collectors" do our coining. Events are scheduled for the women too.

Hotel Reservations should be made direct with the Hotel Muehlebach, 12th and Baltimore, Kansas City, Mo.

A limited issue Medal commemorating the 25th anniversary of our club will be available at \$1.75 per medal. A wooden nickel issue of 50c, 25c, 10c, 5c, will be sent postpaid for \$1.00 for the set.

Any inquiries concerning the convention may be addressed to any of the following co-chairmen:

Ray M. Janda, 9512 Wyandotte Kansas City, Mo.

Ray O. Lefman, 412 S. Van Brunt, Kansas City, Mo.

Allison E. Lowe, 5206 Highland Kansas City, Mo.

Gentlemen:

Enclosed please find check for 1 year subscription. I just plain and simply gave up trying to borrow a copy, no one will part with their Flying Eaglet. Please send immediately.

I would appreciate the mailing address of the Camden County Coin Club.

Thanks a Trillion,

—Mrs. L. Marmor
Brooklyn, N. Y.

Definition of a Trillion—
A barrel full of Indian sense.

—O—

Dear Sir:

Since the new rates will be 3 years \$7.50 I'm going to send a money order for a 12 year subscription for \$20.00.

—J. D. Sherko
Chicago, Illinois

(Editor's note) We have received inquiries for life subscription prices. These extended subscriptions are gratifying, but 3 years is the limit for the present.

Thank you.

—O—

Dear sirs:

Enclosed find renewal.

Just keep them a coming!

—Edward Gargas
Duquesne, Pa.

—O—

Dear sir:

Enclosed please find check for \$3.00 for which please send me twenty Grading Photo Sheets as advertised in your wonderful magazine. It's a pleasure to read the print on such fine paper.

—C. B. Holcombe
Burlington, Vermont

—O—

A DREAM COMES TRUE

Dear sir:

First I would like to say that I have been a subscriber of your magazine for seven months and have enjoyed it very much. The only part of your magazine I dislike is the "Reader's Rare Find" part. I really do not dislike it, I find it heart breaking. I sit and read for five minutes of the spectacular finds of other collectors then cry for two hours because although I go through many coins I have never found a very rare one.

This has all changed now! At 4:45 in the afternoon of February 6, 1959 I found one

1942 over 1941 dime. It is in X.F. condition. I now need two more, (1916D & 1926S) Mercury dimes to complete my collection. I also found a 1955-S 10¢, a few filled (9) cents and a fine 1915-S cent I needed. I now need nine Lincoln coins to complete my collection (not counting a 1943 copper which I hope to find soon).

Enclosed you will find 25¢ for one Grading sheet.

Could you tell me if there is any record of the amount of 1942 over 1941 dimes struck?

—Bill Houston, Illinois
(Editor's note) There is no record but it is reasonable to assume they are scarce and very few.

—O—

Dear Mr. Spadone:

Enclosed find P.O. money order for the following:

100 Grading Series (as per Sept. Issue). \$15.00.

These are for use by the Charlotte Coin Club. I distributed a few at last meeting and the members voted to get one for each member.

—C. A. Bolt, M. D.
A.N.A. 7351
Pres. Charlotte Coin Club

—O—

Gentlemen:

I wish to renew my subscription as I like the FLYING EAGLET. You will find two dollars in currency herewith.

One thing I like about your editorial policy, if a subscriber writes and asks a question, you go to the trouble to get authoritative information so that your answer is correct.

Your columnist, Mr. Glaser, answers very promptly when a question is sent to him.

I find coins somewhat confusing at times although there is much in common with stamps, in which I have had more experience. Coin collectors seem to gather rolls of coins as stamp collectors do sheets of stamps.

—Jesse Kendall
Baltimore, Maryland

—O—

Gentlemen:

I have been collecting coins since 1952. I would like some information as to where the nearest Numismatic Coin Club is to Ashtabula, Ohio so I may join it. I collect gold coins and currency. I would appreciate any information you could give me.

—Ralph Daniels

(Editor's note) Someone living in your vicinity, reading your letter may help you. Each month we set aside a page for Club News, New Clubs and interesting reports. All coin clubs are welcome to submit for publication club reports and items of interest.

Dear Sir:

Last December my son and I made a circulation find of the rare Canadian 50c piece, 1947 Maple Leaf 7 curved right. It has been sold for \$125.00.

—Carl Lehrbass
Alvinston, Ontario

A 1910-P CENT MAKES NEWS

Last month a phone call was made to our office asking if we had a 1910 penny for sale. A 1910 plain I asked? Yes, they replied. An unc. one do you want! No, circulated. Did you say 1910-S, no a circulated 1910-P. I could hear someone over the phone say, ask him how much he wants for it. Being somewhat confused, I replied 3¢. They said we'll be over to get it. I tried to figure it out. Either my hearing isn't too good or we have a news story coming up.

Sure enough a lady comes in, "I am sure glad you have that 1910 penny, my husband and I have looked for days through rolls of pennies and just couldn't find one. We decided it would be cheaper to buy one." Handing her the 1910-P cent, I thought here is a collector down on her luck. Lady, I said, 1910-P is one of the commonest and easiest coins to find. That may be so she said, but my son is being initiated in college and he's got to have one. Well that figured and I was more at ease, but then I thought, I wonder how many keys she returned to the bank, just to find a 1910-P penny.

—O—

NOTHING IN 250,000 CENTS SORTING

Have been reading about the Rare Finds on Lincoln cents, don't see how they do it, I probably sorted through more than 5,000 Rolls of Lincoln Cents, never did Find any of the following, 1909-S V.D.B., 1911-S, 1914-D, 1922, 1923-S, 1931-S. (Believe it or not).

I enjoy reading the "Flying Eaglet" very much, it is Truly A Fine Magazine. (Keep Up The Good Work).

—Carl B. Tamping
Sidney, Ohio

—O—

Dear Editor:

I stopped by the bank the other day and asked my usual question as to the status of the old coins. The teller said that she had saved some old ones for me to look them over, whereupon she spread out five dollars of Barber quarters and dimes, and put down two rolls of Barber quarters. A customer had turned them in and redeemed them at face value. He said he had heard that "they weren't worth but a quarter each anyhow."

In reality, there were no outstanding dates, and most were in but good condition. One 1909 was in VF condition so it made the find well worth while.

My neighbor and I both new collectors, had a fine busy evening culling the FIND for any collector must admit one doesn't often get \$25 worth of coins such as those across the counter at the local bank.

—Capt. Wirt D. Griggs
Elgin AFB, Fla.

FUND FOUND FLOATING IN FLOOD FROTH

By

Earl A. McBrayer

The recent disastrous Ohio River rampage cost citizens millions of dollars. Many valley dwellers lost all of their possessions including the homes in which they lived. Indeed, the January, 1959, flood has been called the worst inundation in over forty years for many Ohio communities.

However, Raymond Franks, of Brower Road, North Bend, Ohio, who is a student in the seventh grade of Taylor High School, was more fortunate than many of his neighbors. He was walking along the swollen waterway after school one day when he noticed a large chest of drawers floating in toward the shore. The chest was trapped in some debris near Raymond and he eagerly hauled it in. He almost fell in, too, while trying to open the only drawer which had not been lost to muddy Ohio waters.

Raymond related to his classmates at Taylor how excited he was as he searched through the muddy, wet clothes looking for something worthwhile. He was surprised to find a jar full of old notes and coins. Water had not seeped into the jar. The coins appeared to have been collected during World War II by an American soldier who was stationed at many different overseas points.

Although the intrinsic value of the accumulation was not large, Raymond was quite pleased with his find. His classmates made him the center of attention for several days while he proudly displayed his newly acquired "coin collection."

JUST ONE MAN'S OPINION

The Carson City Dollars are the most underpriced series of all coins minted.
All one has to do is check the number minted of each year and you will see that there will never be enough to supply our five (5) million or more (est.) collectors.
Take the 1885 with only 228,000 minted. This would be one for about every twenty-one collectors.
Second comes the 1881 with only 296,000 and so on.

I have a few sets of the 1880 through 1885 complete in Strictly Brilliant Uncirculated.

For set of six (6) \$21.95

Below are my prices for single coins . . . all Brilliant Uncirculated.

1878-CC Proof Surface	\$ 6.00	1882-CC Brill. Unc.	4.00	1890-CC Brill. Unc.	4.50
1879-CC Proof Surface	20.00	1883-CC Brill. Unc.	4.00	1891-CC Brill. Unc.	4.50
1880-CC Brill. Unc.	6.00	1884-CC Brill. Unc.	4.00	1892-CC Brill. Unc.	5.50
1881-CC Brill. Unc.	5.00	1885-CC Brill. Unc.	\$ 5.00		
1882-CC Proof Surface	5.50	1885-CC Proof Surface	7.00		

Please keep in mind that I guarantee every dollar I sell to be Strictly Brilliant Uncirculated.
Money back guarantee plus return postage if not pleased.

My second offering for this month is, in my opinion, a small set with a future.

The War Time Silver Nickel consisting of 11 coins minted 1942 to 1945. (see Red Book).

This set in Brilliant Uncirculated is beautiful and also underpriced in this booming coin market.

My price for the complete set is . . \$5.50 Only until present stock is sold.

The 1943-D is of course in this set and this is one that I compare in value to the 1942-D which is selling today for \$4.50 each.

Custom Built Plastic Holder For Silver Nickel Set Only \$2.95

35c handling charge on orders under \$25.00

SPECIAL—\$1.00 Value Magnifier, genuine leather case, only 50c with any size order
